

Feature:	The ePaperless Office Usage Screen Within The Admin Options Menu Tab Has Been Redesigned And Can Now Export To A CSV File
Explanation:	The <i>ePaperless Office Usage</i> screen within the <i>Admin Options</i> menu tab has been redesigned. The screen will now display each customers usage in a single line format instead of a frame. New <i>Print</i> , <i>CSV</i> , and <i>Hide/Show Empty Columns</i> buttons have also been added. The <i>Print</i> button allows for report printing. The <i>CSV</i> button allows for the information to be exported to a CSV formatted file (<i>eoffice_usage.csv</i>). The <i>Hide/Show Empty Columns</i> button allows for the ability to show or hide columns with zero values. The <i>Show N items</i> drop down filter allows the user to view 10, 25, 50 or 100 customers per page at a time.
